Dear Pleasanton City Council Member,

The proposed California Splash expansion would create a water park with an annual attendance that's projected to be about 70% of Concord's Water World. I contacted the Concord Police Dept. and asked them for a listing of all emergency responses they made to Water World in 2003. The list they provided was alarming... it included everything from VANDALISM and LOITERING to BATTERY, GRAND THEFT and BURGLARY! This list also included numerous calls the Police Department had transferred to the Concord Fire Department for dispatch.

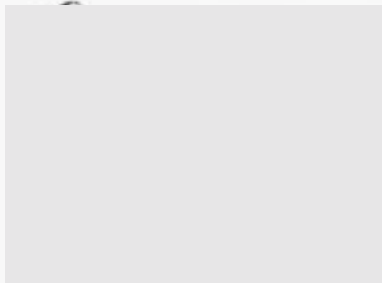

In my opinion, this list is just the "tip of the iceberg." It only shows calls dispatched from the Concord Police Department's Northern Field Office to the park. It doesn't include incidents handled by police officers already at the park, it doesn't include incidents handled by Water World's in-park security and it doesn't include police calls dispatched to homes and businesses in the neighborhood around the park (when people are kicked out of the park for drinking or fighting, where do you think they go?). So much for claims that building a large water park in Pleasanton will not increase crime!

I've attached a copy of the list I received from the Concord Police Department and a list that I prepared that explains some of the codes on this report.

Also, I contacted Edward James, Concord City Manager, and asked his office to give me the amount that the City of Concord spent for fire and police services for Water World last year. I'm waiting for a member of his staff to supply me with that number... stay tuned.

Not only is this expanded water park going to cost Pleasanton valuable funds (for fire and police services) that could be better spent on more important projects (like the Youth Center), but it's also going to increase crime in our community. When you vote on this project on March 16th, you have an opportunity to keep this from happening to Pleasanton... please don't let us down.

Thanks,

cc: Timothy Neal, Pleasanton Chief of Police
